

WHAT IS THE INTERNATIONAL INSTITUTE OF ORIGINAL MEDICINE?

The International Institute of Original Medicine is a Christian, distance learning, natural health, and educational institute. We offer health education and services that are in harmony with the Creator's natural laws of health. We believe that our offerings will provide all our valued students, both Christian and non-Christian, a powerful set of time-honored principles for developing the whole person – body, mind and spirit.

God's simple methods of healing do not include, as a general rule, the use of drugs and invasive surgeries. Original Medicine utilizes the natural laws of health as outlined by the Holy Bible.

In order to provide the student of IIOM with quality education at affordable prices, we offer the Home Study Alternative.

We are a dynamic organization that will continue to expand to meet the needs of our ever-growing network of health professionals, chapters and affiliates to ensure the highest quality educational offerings and services.
